

PRODUCT OVERVIEW

Jones Howard provides a dedicated service to all recruitment agencies and contractors actively working through the CIS (Construction Industry Scheme). Unlike many other providers, Jones Howard's CIS service is a stand-alone function solely focussed on delivering a quality payroll service and fully integrated with every aspect of the Construction Industry Scheme

Both our business development and back-office teams have extensive experience of explaining and implementing the scheme to benefit all those entities within the relevant CIS supply chain. Jones Howard covers all CIS sectors including construction, rail and engineering, plus a myriad of occupations carried out by sub-contractors operating in the building and maintenance industry.

All of our processes and procedures are fully compliant with all facets of the scheme, including transparent gross to net calculations and demonstrable submissions to HMRC.
